Re: Safety Check on Floor Hockey Helmets

Special Olympics Ontario requests, that Floor Hockey Coaches check every Helmet that is being used in Floor Hockey programs; to ensure that they are CSA approved. Non CSA approved Helmets, are not be used in any setting (practice or competition). CSA certified products, have a certification mark on them. For a visual please visit http://www.csa-international.org/certification_marks/marks_for_canada/

Please note, "Masquerader" Helmets, often referred to as "Street Hockey Helmets" are NOT CSA approved and are not be used.

We would like to take this opportunity, to remind Coaches; that safety checks should be conducted on all equipment, at regular intervals. Please check your Helmets, at your next practice.
